SUMMARY

I am a prolific developer with over 13 years experience across mobile development, front and backend engineering on web and devOps. I am a technology enthusiast, fast learner and enjoying solving challenges with technology by building scalable, easy to use and well-designed solutions.

SKILLS

- Experience leading and managing a team of over 10 engineers.
- Good written and communication skills.
- Knowledge of effective development processes and tools for collaboration and versioning.
- Knowledge of highly scalable software design, processes (queues, caching, load balancing, DB sharding, microservice architecture) and tools (Redis, HAproxy, Lambda, Cloud functions).
- Scalable web application development (Node.js and PHP).
- Front-end engineering with HTML, CSS and Javascript (and related MV* frameworks).
- Database (relational and non relational databases) modelling and design. Extensively used MongoDB and MySQL.
- Experience working with Docker and Kubernetes.
- Experienced in building and consuming APIs—both REST and GraphQL.

EXPERIENCE

• CTO, RelianceHMO

Lagos, Nigeria

2018

- Grew the engineering team from 4 to 13.
- Introduced the team to best engineering practices and standards like writing tests, proper error logging and reliability monitoring.
- Currently manage the team and product development.

• Tech Director/Cofounder, Fonebase Labs

Lagos, Nigeria

2014 – 2017

- Led the development and [server setup](#) of the enterprise version of Callbase, a cloud based call-centre application.
- Built the frontend (Backbone.js), backend (PHP/MySQL) and [Android application](#) of the first version of Callbase.
- Built the web and Android applications for the first version of Writerack, a tweet-storm application.

- **Tech Lead, Prowork**

Lagos, Nigeria

2011 – 2014

Built the frontend (Backbone.js), backend (PHP/MySQL), and Java/Blackberry application for Prowork, a project management web and mobile solution. Prowork won a couple of awards including the [US department of State's Business Challenge](#) (2012).

- **Software Developer, Wizards Solutions**

Akure, Ondo State, Nigeria

2006 – 2008

I was one of the two core developers that led development of the Ondo State Human Resource digitalisation project (ePASS); a human resource solution that managed the records and biometrics for over 35,000 civil servants.

EDUCATION

- **Federal University of Technology, Akure, Ondo State, Nigeria**

B.Tech, Electrical Electronics Engineering

2004 – 2010

SOME PROJECTS

- **[Now](#)**

Detailed analytics and reporting for Mailgun transactional email.

- **[Waytab](#)**

Get a daily digest of random items (tweets, pocket articles, and more) you've liked and bookmarked..

- **[Consuming REST APIs – a soft introduction](#)**

A soft introduction to consuming REST APIs.

AWARDS

- **YNaija: Nigeria's top 100 tech innovators**

Feb 2016

Recognition of contributions to the Nigerian technology space as one of the [YTech100](#).
